Rates for the California National Primate Research Center Multimodal Imaging Core are shown below and are valid from May 1, 2020 to April 30, 2021.

The Core welcomes inquiries on project design and radiochemistry needs.

Investigators are strongly encouraged to consult the Core on study design and when preparing budgets and addressing relevant text for grant applications and other funding opportunities.

For questions please contact:
multimodalimagingcore@ucdavis.edu
Phone: 530-752-3266

Core Services – Multimodal Imaging Core

Note: Supplies are billed separately from hourly rates unless specifically stated.

Labor rate per hour	Technical Labor $92 Professional Consultation $157

Imaging Modality	**Rate**
PET*/CT	$350
Inflation CT	$350
CT	$250
Optical Imaging (*does not include luciferin*)	$122
Ultrasound (Supplies only) (Professional labor billed separately and supplies for ultrasound-guided procedures billed separately)	$14.75

	Rate/slide
Whole Slide Scans	$45.78
	Rate/hour
Microtome	$22.57
Workstation	$22.25
Microscope	$25.10

***Radiochemistry:** Costs depend on project needs and labor involved **(please contact the Core**); includes πPET and related activities that are billed separately
Pharmacokinetics: Costs depend on project needs and labor involved **(please contact the Core)**
Quantitative Image Analysis: Costs depend on project needs **(please contact the Core)**

Available radiotracers include:
^{18}FDG (up to 2 mCi)
^{18}F and ^{11}C PET tracers
Cyclotron-produced ^{18}F (up to 3,000 mCi)
Cyclotron-produced ^{64}Cu (150-200 mCi)
^{89}Zr and other radioimmunoconjugates

Special tracers as arranged (please contact the Multimodal Imaging Core for radiotracer needs and costs)
